

Session 8

Practical session

Matt Denwood

2022-06-10

Practical session

This is the final session of the course!

We have three options to choose from:

1. Finish up working on practical exercises from previous sessions
2. Work on your own data and ask us for help/advice
3. Look at how to implement custom distributions/functions via a JAGS module
 - See the JAGS_modules subdirectory

Before you go . .

- Feedback on the course would be extremely welcome!
 - Please fill in the stop/start/continue feedback forms provided

Before you go...

- Feedback on the course would be extremely welcome!
 - Please fill in the stop/start/continue feedback forms provided
- Remember to keep an eye on the COST action website:
 - <http://harmony-net.eu>
 - Physical training schools are being run in September and accepting sign-ups now!
